Who We Are

Based in Gurgaon, Atishay Specialities focuses purely on sourcing products such as industrial chemicals, natural oils and extracts, fragrances, flavours, and others, from different channels and supplying them to manufacturers. Our firm was established in 2012, and since then we have been striving hard to outsource best quality products from various possible sources.

We are backed by a team of competitive and experienced members, who are always ready to give in their best, and do not compromise with the standards and quality of a product. Having an expertise in their respective fields, they know well about the diverse needs of their customers, hence, try to gain maximum customer satisfaction making use of their valuable knowledge. Our offices are located in Gurgaon & Haridwar whereas, our warehouses are situated in New Delhi, Haridwar and Kotdwar.

Mission

Our mission is to build a good relationship base with our privileged clients, by delivering them the best products that meet both national and international quality standards.

Vision

Our vision is to be the most customer centric company; through improving customer satisfaction by providing innovative, cost effective & formulator friendly products supported by technical & formulation services and manufacturing facilities.

From The Desk of Director

Greetings!

We have been carrying out all our activities following our basic management philosophy of making a contribution through our products and services in order to enhance the lives of people and look forward to the further progress of the society and the environment.

Having skilled and expert professionals, we aim at achieving our goals in a much better and balanced manner. Our cutting edge research and technology has led us in providing better quality services to our customers, along with satisfying their needs.

Right now, we are focused to outsource best quality products from various sources, and supplying them to manufacturers. Going forward, as we continue to carry out these activities, we will aggressively move forward by improving customer satisfaction by providing innovative, cost effective & formulator friendly products supported by technical & formulation services and manufacturing facilities.

Ms. Mridula Jain
Managing Director

Key Points

The key points and ground on which our management and policies are based on are:

1 Hands on Expertise

Having skilled and expert professionals, we aim at achieving our goals in a much better and balanced manner. Our cutting edge research and technology has led us to providing better quality services to our customers, along with satisfying their needs.
